How can you make a good presentation even more effective?

This page draws on published advice from expert presenters around the world, which will help to take your presentations from merely 'good' to 'great'.

By bringing together advice from a wide range of people, the aim is to cover a whole range of areas.

Whether you are an experienced presenter, or just starting out, there should be ideas here to help you to improve.

1 Show your Passion and Connect with your Audience

It's hard to be relaxed and be yourself when you're nervous.

But time and again, the great presenters say that the most important thing is to connect with your audience, and the best way to do that is to let your passion for the subject shine through.

Be honest with the audience about what is important to you and why it matters.
